# Funding Water Conservation Measures

The Region should work together and with SWFWMD over the next 6 months towards relative to potential incentives and funding assistance options to implement quantifiable indoor water conservation measures over the next 20 years. Issues to be considered include the funding assistance allocation, parity customization of Alliance utilities' water conservation efforts, existing and future revenue shortfall issues associated with water conservation, and distribution system water quality.

- 1. Strongly Agree
- 2. Agree
- 3. Neutral
- 4. Disagree
- 5. Strongly Disagree
