Speakers

Interactive Voting – Regional Water Conservation Plan

- Implementation by Alliance Members
- Identify indoor water conservation measures
- Develop regional goals of indoor measures to support funding partnerships
- For outdoor water conservation, ban/discourage use of potable water for non-agricultural, in-ground irrigation systems
- Make eligible for indoor conservation measures, all residential users within Alliance members' service area
- Adopt EPA WaterSense standards on a local level
- Partner with Green Plumbers USA on a local level

Interactive Voting – Regional Water Conservation Plan

- Finalize potential indoor water savings and costs by January 2011
- Region is to develop, by January 2011, potential incentives and funding assistance options for a 20-year implementation schedule of indoor measures. Address issues for
 - Parity of current conservation efforts
 - Funding assistance allocation
 - Conservation-related utility revenue impacts
 - Distribution system water quality

Continuing Water Conservation Activities by the Region

- ✓ Finalize quantifying potential indoor water savings and costs
- ✓ Recognize impacts to water distribution system quality
- ✓ Identify related utility revenue impacts
- ✓ Provide parity for current programs and efforts
- ✓ Create options for allocating outside funding assistance
- ✓ Develop strategy for partnerships with EPA WaterSense and Green Plumbers USA
