The Peace River Manasota Regional Water Supply Authority is sponsoring the 2011 Water Summit on Wednesday, June 1, 2011 at the Hyatt Regency Sarasota. Each Water Planning Alliance member is encouraged to appoint an elected official to attend and represent their entity at the Summit.

The Water Planning Alliance was formed 10 years ago to explore cooperative solutions to water supply issues brought to light by the most severe drought the region had faced in 100 years. The most recent Alliance meetings (spring 2009 and spring 2010) were Water Summits focused on conservation, conducted with the Peace River Manasota Regional Water Supply Authority, Southwest Florida Water Management District and other agencies.

Adding to the great success of water conservation efforts in our region, and advancing the Alliance discussions initiated in 2001, the 2011 Water Summit will explore ways to ensure water supply and water system reliability, economy, and environmental sustainability, while minimizing future capital investments. Cooperative efforts, including interconnecting regional and local water systems, improved utilization of existing water supply facilities, and commitments to share supplies, support these tenets and will be discussed at the June 1<sup>st</sup> Water Summit.

An agenda is attached.
